

Procurement Policy

1. Purpose

This policy establishes the principles and procedures for purchasing goods and services while ensuring transparency, cost efficiency, regulatory compliance, and ethical business practices.

2. Procurement Principles

All procurement activities must be fair, competitive, transparent, and aligned with approved budgets and business requirements.

3. Vendor Selection

Suppliers should be evaluated based on quality, price, reliability, service capability, security, compliance, and overall value to the organization.

4. Purchase Requests

Employees must submit purchase requests through the approved procurement system with sufficient business justification and required approvals before any commitment is made.

5. Purchase Orders

Approved purchase orders must be issued before vendors deliver goods or services unless an authorized exception has been granted.

6. Contract Management

Vendor contracts should be reviewed by the appropriate business and legal stakeholders before execution and renewed only after performance evaluation.

7. Conflict of Interest

Employees involved in procurement decisions must disclose actual or potential conflicts of interest and avoid accepting inappropriate gifts or favors from suppliers.

8. Supplier Performance

The Procurement team periodically evaluates supplier performance based on quality, delivery, responsiveness, compliance, and contractual obligations.

9. Related Policies

Refer to the Expense Policy, Code of Conduct, Employee Handbook, and Travel Reimbursement Policy for additional guidance.

10. Responsibilities

Employees, managers, Procurement, Finance, and Legal teams share responsibility for ensuring compliant, ethical, and efficient purchasing decisions.
